Overview

Guardian Defense Group is seeking a Licensed Psychologist to fulfill the role of Senior Behavioral Specialist for the Defense Counterintelligence and Security Agency (DCSA) Department of Defense (DoD) Insider Threat Management and Analysis Center (DITMAC). The mission of the DITMAC is to enable information sharing, collaboration, analysis, and risk mitigation across the DoD Components to address current and emerging threats to DoD personnel, assets, and information by insiders. This mission requires expert support services to apply behavioral analysis methodologies to identify and address key challenges across the spectrum of Insider Threat. The DITMAC specifically requires psychological and threat management expertise to inform and provide advice on behavioral indicators that could identify individuals who may pose a risk to DoD personnel, facilities, infrastructure, networks and national security information.

Responsibilities

The Senior Behavioral Specialist will apply behavioral analysis methodologies to address life threatening problems, looking for patterns and data with meaningful correlations to public safety and national security. The Senior Behavioral Specialist will leverage his/her education, expertise, understanding of the DoD population and experience producing risk assessments, support to counterintelligence issues, demonstrated understanding of eligibility and access determinations for classified and/or sensitive information, and support to workplace violence prevention to accomplish the specific tasks.

Minimum Qualifications

Holds a Doctorate of Philosophy (PhD) in Psychology, with a clinical and/or forensic background, and a minimum of 10 years of experience in the field of clinical and/or forensic psychology

Licensed in any of the 50 States or territories and optional Diplomate, American Board of Professional Psychology in either Clinical Forensic or Police and Public Safety.

Possess a forensic background with experience in one or more of the following areas:

- threat assessments;

- support to counterintelligence operations,
- eligibility and access determinations for classified and/or sensitive information support to workplace violence prevention;

A demonstrated understanding of the DoD population through work experience directly supporting the military or DoD population.

Demonstrated ability to collaborate with the greater threat professional community, current membership in the Association of Threat Assessment Professionals (ATAP) preferred.

Currently holds or can obtain a TS/SCI clearance;
